THE BEFORE

SEEN AT 2:14PM. ANSWERED THE NEXT DAY.

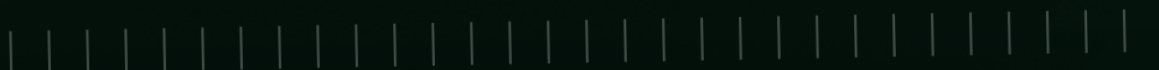

Meta ads brought in real leads: kitchen remodels, full home renovations, \$20k+ projects per Houzz. The owner was on client sites most of the day, so every enquiry that landed just sat there.

● STUDIO ENQUIRIES

WHATSAPP

Hi! Interested in a kitchen remodel quote, what's involved?

✓✓ Seen • 2:14 PM

24 HOURS OF SILENCE

NO REPLY SENT

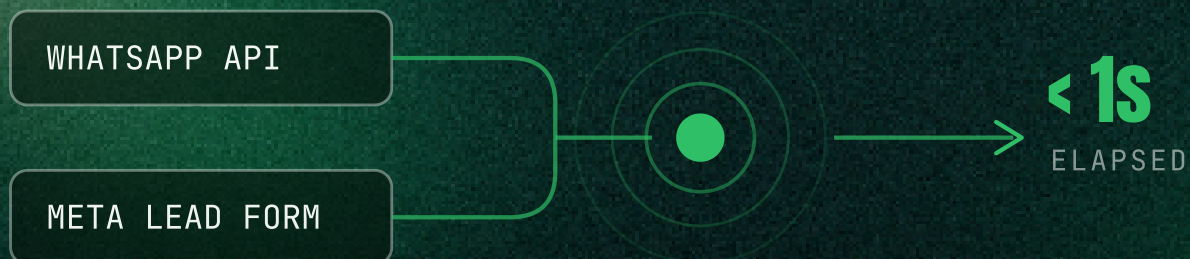

STEP 1 • TRIGGER

FIRES IN UNDER A SECOND.

A webhook watches the WhatsApp Business API and the Meta lead form. A new enquiry triggers the workflow instantly. No polling, no missed message.

```
// webhook · whatsapp.message | meta.lead  
on(enquiry) ⇒ workflow.trigger(enquiry)
```

STEP 2 • REPLY

A REPLY, NOT A FORM.

An LLM node drafts the first response in the studio's own voice and sends it over WhatsApp before anything else happens. That is what kills the "seen, no reply" feeling.

LIVE

Hi! Interested in a kitchen remodel quote, what's involved?

Hi, thanks for reaching out. Happy to help with the kitchen. Quick one so I point you right: is this a full remodel or a refresh?

✓✓ DELIVERED • 4 SECONDS LATER

STEP 3 • QUALIFY

WHAT A DESIGNER WOULD ASK.

One question at a time, inside the same WhatsApp thread. No forms, no app to download.

Is this a full remodel or a refresh?

PROJECT TYPE

Roughly what range are you working to?

BUDGET BAND

When are you hoping to start?

TIMELINE

✓ THREE ANSWERS CAPTURED, NO FORM, NO APP

STEP 4 • BOOK + LOG

NOTHING DEPENDS ON MEMORY.

Once qualified, the flow holds a slot on the calendar, confirms it back over WhatsApp, and logs the lead to a CRM sheet.

WHAT NEARLY BROKE IT

TOO MUCH, TOO FAST.

Version one fired three qualifying questions in one message before saying anything human. Reply rate dropped hard in the first 48 hours. People were ghosting the bot, not the studio.

V1 • REPLIES FELL

What type of project is it, what's your budget, and when do you want to start?

✓✓ Seen • no reply

V2 • SHIPPED

Happy to help with the kitchen. Quick one so I point you right: full remodel or a refresh?

✓✓ Replied in 2 minutes

FIX: one question per message, a warm line before any question, human handoff if a lead stalls twice.

THE FIX WAS NEVER MORE ADS. IT WAS ANSWERING THE ENQUIRIES ALREADY COMING IN.
